

TOMBOY RALLY 2009-2010 – 2° EDITION

2° Edition of Tomboy Rally Postal Contest ended May 31 th 2010 with some news for the Editors; Many Tomboys in rank and a good increase in times flight for the first tree contestants than last

year. Unexpected, surely, then the winner was an Italian modeller, 85 year old too!. Yes I Am very happy than the winner of 2° Tomboy Rally P.C. was Gino Ursicino with a great 35 '20" made in a sunny morning of April near Rieti (60 miles at est from Rome).

Gino said Me that He had stopped His chronometer when Your Tomboy had self-landed near the clubfield, because Rx battery was empty and almost 20 minutes of flight was made without control!

Dete Hasse from Australia was placed 2° with His very neat Tomboy, for the Editors the most Fashion in this edition,

with a brilliant 34' 50" made in September the 1st 2009. 3° placed another Australian modeller, Brian Deason who had made His best flight, 25' 11", July 17 th 2009. In that trial Les Davis had made a shot very nice where, in hand take-off, the wheels of Your Tomboy seems to be a google! 4° placed Les Davis, skill with Camera and with Your Tomboy who had gained a 24'44" in June, 5th 2009. Like

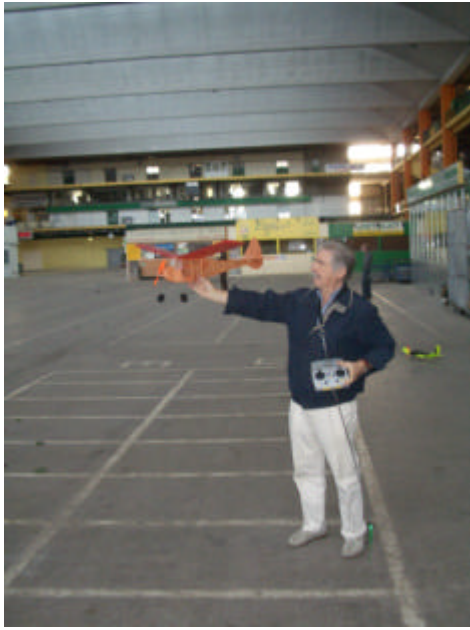

in past edition Australian modellers are very competitive and love this little Vic Smeed design because half modellers in rank, 10 on 20, living in that extraordinary Land. We want, SAM 2001 President Giovanni Ridenti, Gianfranco Lusso

and Me, to Thanks Paul Baartz who organized Sam 270 members met at the Cardup flying field on Sunday 22nd November 2009. In His report, He described weather great, light winds, very little cloud, warm at about 22°C and some really good thermals passing over the field. The best time, and the winner, of the met was 14' 15" by Rod McDonald and the other friends, Ian Dixon, Paul Baartz, Alan Trott, Gary Sayers, Rob Rowson and Gary Eyre had fight with honor. In this edition another Tomboyst who live in Southern hemisphere wrote his name in rank, the well known Editor of AVA N.Z. NEWS Graham Main

from New Zealand with a good 6'44"; His Mills 0.75 and His Tomboy had try hard to find some

updafts in a sunny day in which there was only downdafts. Good Luck Graham for next edition. The first European modeler in rank in co-editor Gianfranco Lusso, placed 5°, with 17' 11" made on His clubfield near Nice (France). Lusso had enhanced his time flight and placed in rank than last edition (7° with 15'46"). During the winter and spring Gianco could improve His time for bad whether conditions; "Well, what now?" sed yourself. " I will fly indoor!!!". So, as You can see, Gianco fly with His own Tomboy in hall of Flower's Market of Nice". Probabilly the only Tomboy that had flight indoor in the world. Next Master the pupil; 6° placed Raphael Braud with 14'45" who has not to improve His good time for school troubles. His parents

have requisited His Tomboy in waited of good marks and the ended of the school. For the other Italian modelers in rank 8° Cavallaro Eros, 13' 57", (5° with 19'30" in past edition) have change His I.C. Letna 0.6 for an electric motor but has

lost some position in rank (and 6' minutes in time flight) 11° Wessely Giancarlo 10'23"(have gained to change a Mills 0.75 Irvine with an electric motor), 12° Santoni Curzio (shame!) with 8'56", Di Chiara Gian Franco, Sagnotti Maurizio e Riccardelli Antonio with time flight under 6'. Gianfranco Lusso and Me went to Thanks all the contestant who have flight in 2° Tomboy Rally and all the other friend that have not take part in this

contest for some troubles like Lou Amodio (Auguri per la nascita di tua nipote), past winner Pieter Moerkerker and all friends of IMAC and of GCMAC (a special

Ciao to John

Brennan), Garry Henderson-smith Joska Vladislav, Tascone Valeriano e Musella Francesco. In next week We send to all the Diplomas and the prizes (personalized T-Shirt) at Gino Ursicino, Dete Hasse and Brian Deason and We hope to find Your times in rank of 3° TOMBOY RALLY started June 1° 2010 up to May 31° 2011.

Giancarlo Lusso and Curzio Santoni
